Brief Description of Arguments to be Presented:

(1) The obviousness type rejection with regard to the Piroit cited reference. More specifically, we would like to discuss the billing records disclosed in Piroit compared to the current claimed call detail records. In addition, we would like to discuss the comparison of the operator's modification of a database for general billing statements as disclosed in Piroit, with allowing a computing application to automatically modify a call detail record on a per call basis as currently claimed.
